

SAINNI SAI SANJANA

+91-9392297031 | saisanjanachowdary@gmail.com | [LinkedIn](#) | [GitHub](#)

Hyderabad, Telangana, India

OBJECTIVE

Computer Science undergraduate with hands-on experience in Software Development, Artificial Intelligence, Machine Learning, Cybersecurity, and Full-Stack Web Development. Skilled in Python, Java, SQL, React.js, FastAPI, PostgreSQL, Docker, and Git. Experienced in developing AI-powered applications involving Computer Vision, NLP, Threat Detection, and Incident Response Systems. Seeking Software Engineer, AI/ML Engineer, or Cybersecurity roles to leverage technical and problem-solving skills.

EDUCATION

- Geetanjali College of Engineering and Technology** 2023 – 2027
B.Tech in Computer Science and Engineering | CGPA: 8.47/10
Hyderabad, India
- Board of Intermediate Education, MPC** 2021 – 2023
Secondary Education | Score: 921/1000
Khammam, India

PROJECTS

- AI-Powered Defense Communication & Incident Response System**
Tools: React.js, FastAPI, PostgreSQL, OpenCV, YOLOv8, Whisper, Groq API, Llama 3.3 70B, Docker
 - Developed an AI-powered defense platform for real-time surveillance, incident detection, and secure communication.
 - Integrated YOLOv8, Whisper, and Llama 3.3 (Groq API) for object detection, speech recognition, and AI-generated incident reports.
 - Built a scalable full-stack application using React.js, FastAPI, PostgreSQL, WebSockets, JWT authentication, and Docker.
- OncoVisionAI**
Python, PyTorch, OpenCV, Streamlit, CNN, U-Net, Grad-CAM
 - Developed a deep learning-based cancer detection system achieving over 90% classification accuracy.
 - Applied U-Net for tumor segmentation and Grad-CAM for explainable AI visualization.
 - Built and deployed a Streamlit web application for real-time medical image analysis and prediction.
 - Improved interpretability and usability of AI predictions for healthcare applications.
- Behavioral Ransomware Early Warning System**
Tools: Python, Scikit-learn, Watchdog, Tkinter, Matplotlib, SHA-256
 - Developed an AI-powered ransomware detection system using behavioral analysis and Random Forest-based risk scoring.
 - Implemented real-time filesystem monitoring, entropy analysis, and honeypot-based detection for early threat identification.
 - Built a Tkinter dashboard with blockchain-inspired immutable logging for real-time monitoring and forensic analysis.
- Advanced Audio Steganography using LSB Technique**
Tools: Python, AES Encryption, Tkinter, Firebase, SMTP
 - Developed a secure audio steganography application using the LSB technique to hide encrypted messages in WAV files.
 - Integrated AES encryption, Firebase Authentication, and Cloud Storage for secure communication.
 - Built a Tkinter GUI with secure email sharing using SMTP.

POSITIONS OF RESPONSIBILITY

- People & HR Team Member | Open Source Software (OSS) Club** 2025 – Present
 - Coordinated recruitment, onboarding, and community engagement activities.
 - Assisted in organizing technical workshops and club events.

SKILLS

- **Programming Languages:** C, Java, Python, SQL
- **AI & Machine Learning:** PyTorch, Scikit-learn, CNN, U-Net, Grad-CAM, YOLOv8, OpenCV
- **Web & Backend:** React.js, FastAPI, HTML, CSS, JavaScript, Streamlit, JDBC
- **Databases:** PostgreSQL, MySQL, Firebase
- **Cybersecurity:** VAPT, Application Security, Behavioral Malware Detection, Audio Steganography
- **Tools & Technologies:** Git, GitHub, Docker, WebSockets, JWT, Whisper AI, Groq API
- **Core CS:** Data Structures, Algorithms, OOP, DBMS, Operating Systems, Computer Networks
- **Soft Skills:** Problem Solving, Analytical Thinking, Teamwork, Communication, Quick Learner

CERTIFICATIONS

• Smart Interviews Data Structures & Algorithms (Smart Coder)	July 2026
• Supraja Technologies (Advanced Internship): Application Security	Jan 2026
• Supraja Technologies (Internship): VAPT	Aug 2025
• NPTEL The Joy of Computing using Python — Silver & Elite	Nov 2024
• Cisco Python Essentials 1	Nov 2025
• Cisco Networking Essentials	Oct 2025
• Cisco Introduction to Networks	Oct 2025
• Oracle Academy Database Design	Nov 2024
• Oracle Academy Java Programming	Nov 2024

ADDITIONAL INFORMATION

- **Languages:** English, Telugu
- **Coursework:** Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, Object-Oriented Programming
- **Areas of Interest:** Artificial Intelligence, Machine Learning, Cybersecurity, Computer Vision
- **Soft Skills:** Problem Solving, Analytical Thinking, Team Collaboration, Quick Learner
