

SAINNI SAI SANJANA

+91-9392297031 | saisanjanachowdary@gmail.com | LinkedIn | GitHub | Portfolio

Hyderabad, Telangana, India

PROFESSIONAL SUMMARY

Final-year Computer Science and Engineering student with hands-on experience in AI, Cybersecurity, and Full-Stack Development. Proficient in Python, Java, React.js, FastAPI, and Machine Learning, with a passion for building secure, intelligent applications.

EDUCATION

- Geetanjali College of Engineering and Technology** 2023 – 2027
Bachelor of Technology in Computer Science and Engineering | CGPA: 8.46/10 Hyderabad, India

EXPERIENCE

- Advanced Cybersecurity Intern | Supraja Technologies** Jan 2026
 - Selected for the Advanced Internship based on outstanding performance during the Cybersecurity Internship.
 - Developed a Behavioral Ransomware Early Warning System using behavioral analysis and machine learning.
 - Implemented real-time file system monitoring, entropy analysis, honeypot detection, and immutable logging for ransomware detection.
- Cybersecurity Intern | Supraja Technologies** Aug 2025
 - Developed a secure Audio Steganography application using the LSB technique with AES encryption.
 - Integrated Firebase Authentication, cloud storage, and SMTP-based secure email sharing.
 - Designed a Tkinter desktop application for secure multimedia communication.

PROJECTS

- AI-Powered Defense Communication & Incident Response System**
React.js, FastAPI, PostgreSQL, OpenCV, YOLOv8, Whisper, Groq API, Docker
 - Built an AI-powered defense platform for real-time surveillance, weapon detection, and automated incident reporting.
 - Integrated YOLOv8, Whisper, and Llama 3.3 to generate automated incident reports.
 - Developed a secure full-stack application using React.js, FastAPI, PostgreSQL, and Docker.
- OncoVisionAI**
Python, PyTorch, OpenCV, Streamlit, CNN, U-Net, Grad-CAM
 - Developed a deep learning model achieving 90%+ accuracy in cancer detection.
 - Implemented U-Net segmentation and Grad-CAM for explainable AI.
 - Built a Streamlit application for real-time medical image analysis.

POSITIONS OF RESPONSIBILITY

- Programming Mentor | Smart Interviews** July 2026 – Present
 - Mentoring students in Data Structures Algorithms for coding interviews and placement preparation.
- People & HR Team Member | Open Source Software (OSS) Club** 2025 – 2026
 - Coordinated recruitment, onboarding, and community engagement activities.
 - Assisted in organizing technical workshops and club events.

SKILLS

- Programming Languages:** C, Java, Python, SQL
- Databases:** PostgreSQL, MySQL,
- Cybersecurity:** VAPT, Application Security,
- Core CS:** Data Structures, Algorithms, OOP, DBMS, Operating Systems, Computer Networks

CERTIFICATIONS

- Smart Interviews Data Structures & Algorithms (Smart Coder)** July 2026
- NPTEL The Joy of Computing using Python — Silver & Elite** Nov 2024
